#MakingEquityRealatBC

**Week of April 25 – 29**

**Friday, April 15 – Sunday, May 15**, Robert H. Morse Library, First Floor

Accessibility, Equity, and Confronting Bias Resources on Display

An exhibit of written, oral, and visual resources along with archival materials about race, equity, diversity and inclusion is on display through Commencement. Organized by our library staff and continually updated, the collection draws attention to documents about "Student Activism -- Integrating the Beloit College Curriculum, Spring 1990" and other resources related to #MakingEquityRealatBC and available to the Beloit community.

**Monday April 25, 12:30 - 1:30 p.m., Moore Lounge**

**All Campus Community Conversation: Hate Acts/ Bias Incident Policy**

About a year ago, a hateful act/crime was perpetrated on our campus. We, as an institution, were forced to acknowledge that we had not prepared ourselves or had in place a protocol or mechanism to address these types of acts or incidences on our campus. Since then, we have been crafting such a protocol. The goal of this event, organized by the Office of Intercultural Affairs, is to inform, answer questions, and address misconceptions in order to move this policy forward for the safety and well-being of all segments of Beloit College. Residential Life and the Office of Intercultural Affairs are facilitating this event.

**Monday, April 25, 8:00 – 9:00 p.m., Science Center 150**

**What’s Wrong With Secularism? A Discussion on the Role of Polemics in Anti-Religious Speeches**

Exploring common goals shared by religion and secularism that are sometimes pushed aside as a result of negative portrayals of religion, conversation will be facilitated by students in the Secular &Fundamentalism seminar with the assistance of Natalie Gummer.

**Wednesday, April 27, 12:30 - 1:15 p.m., Science Center Atrium**

**What About Science and Math?**

An update and discussion for students about what science and math faculty are doing to increase the success of all students. This event is BTYB the Biology, Biochemistry, Chemistry, Geology, Math & Computer Science, and Physics departments.

**Wednesday, April 27, 12:30 - 1:15 p.m., Mathers**

**Advising Students From Under-Served Populations**

FOR FACULTY/STAFF: This session is the second of a two-part series BTYB the Office of Academic Diversity and Inclusiveness. The session uses an equity- and asset-based framework to consider best practices for advising and mentoring students from under-served populations. Scenarios of advising sessions between students and faculty will be used to facilitate conversation with the goal of teasing out subtle and not-so-subtle challenges and pitfalls of advising.

**Wednesday, April 27, 7:00 - 7:45 p.m., Wilson Theatre**

**Faces of Beloit, Body of Christ**

A collection of first person stories written by Christian members of the Beloit College community, produced and directed by Abigail McCully ’18. This event is BTYB the Spiritual Life Program.

**Thursday, April 28, 4:30 – 6:30 p.m., Chaus**

**Bibles, Beers, and Biases**

A Hoptimistic Thoughts-style discussion about secularity and campus culture.

**Friday, April 29, 12:00 - 1:30 p.m., Commons**

**Open Table**

Organized in collaboration with Residential Life, this event offers an opportunity for staff, students, and faculty to share a meal and enjoy personal conversation outside of our usual work and class routines.

**Friday, April 29, 12:30 - 1:20 p.m., Science Center 249**

**Making Equity Real: Pathways to Research and Persistence in STEM Careers**

Shannon Allen (PhD in Life Sciences from Northwestern University) has conducted research on HIV vaccines and has recently been accepted for position in the bioterrorism unit with the federal government. In this HPAC (Health Professions Advisory Committee) & OADI sponsored event, Allen will discuss her past and present research, and her journey to a STEM career as a woman of color.
