This is your time. Your moment to strike your own path & find your own direction.

At Beloit College, there is no single path, no conveyor belt. You make one experience the prelude to another, find one course that is simultaneously connected to the next, add complexity and a craving for more, then ground it all in real-world experience. A hands-on, heads-engaged education.

This is the promise of Beloit: to discover & do, to learn & apply, to challenge & change — a true liberal arts education. We are here to help you find the path between you and your future self.

Visit noboringstudents.org to learn more about Ellery, Tatiana, Calago, and other Beloit students.

Liberal Arts Amplified

Founded in 1846, Beloit is older than the state of Wisconsin.
Beloiters without boundaries.

While these 1,250 Beloiters with disparate passions and interests hail from nearly every state and more than 30 countries, they congeal here, forming a tight-knit community. It happens year after year, generation after generation. Ours is a community full of the adventurous of spirit, the vigorously curious, and individuals with a desire to discover and hone a passion worth applying in the world. But don’t take our word for it.

See what our students say about themselves and their community:
www.beloit.edu/statementofculture

NO BORING STUDENTS

Beloiters don’t have time to be bored and there is nothing boring about them. They are inspired by each other and the faculty, and they are here to do real work on things they really love and believe in. Ask a Beloiter about their experience. It’s different for everyone. But boring? It’s never that. And it will be uniquely yours because it will be crafted by you, for you.

Megan Slavish
Senior, Beloit, Wisconsin
Health & Society • Political Science • Merrill Community Center • Kemper Scholar • Volleyball • "Noonball" • Nutrition • Botswana • International Honors Program • India • Argentina • South Africa • Sugar Maple Fest • Blood Drives • Hands of Faith • Rollerblader • Runner • Biker

Emma Koeppel
Sophomore, Cambridge, Wisconsin
Environmental Studies • Biology • Geology • Campus Greenhouse • Sustainability Fellow • Tenor • Biker • Ultimate Frisbee • Trombone • Jazz Band • Piano Lessons for Kids • Beloit Independent Theatre Experience • Teaching Assistant • New Zealand • DNR • Prairie Restoration • Outdoor Environmental Club House

Josh Smith
Junior, Downers Grove, Illinois
Microbiology • Science Education • Callosal Deposition Assay • Biomedical Scholar Program • Beloit Undergraduate Research Journal • Neuronalade • Western blot • Archaeogena Thermus • RA • Alcohol and Drug Awareness • Phi Kappa Psi • Cross Country Captain • Varsity Track • A Capella • Arranger • Chamber Singers • Music Theory • Turtle Creek • Anna Maria’s Pizza

May Lopez
Sophomore, Quito, Ecuador
Anthropology • Chinese • International Relations • President of the International Club • Model UN Club • Office of International Education Student Staff • Campus Tour Guide • World Affairs Center • Flag Tender

Average class size is 15 students, and one third of classes have 10 or fewer students.

At Beloit, you own your education. Even our mission statement begins with you: “Beloit College engages the intelligence, imagination, and curiosity of its students, empowering them to lead fulfilling lives marked by high achievement, personal responsibility, and public contribution in a diverse society.” You chart the course, dream your dreams, and Beloit’s amazingly flexible curriculum allows you to work closely with your advisor to craft an education that is uniquely yours.

This doesn’t mean you are alone. Far from it. At Beloit, someone is always there to challenge and inspire you, to direct and redirect, to open doors and invite you to explore.

- Folk ‘n’ Blues, a two-day music festival held outdoors under a tent, happens every fall. It’s a tradition.

YOUR BELOIT
Beloit College has been recognized nationally for curricular innovation and excellent teaching. So, what does that mean for you? That professors at Beloit are scholars and researchers but their first love is teaching — teaching you. Expect them to know you by name, to take a deep personal stake in your education, to push you to persevere when you hit a roadblock, and to revel in your successes. And they will make sure you learn by doing — that you put your knowledge into action.

The Liberal Arts in Practice
Beloit students are challenged to both know and know how. They apply the lessons of the classroom in the lab and in the field. (Thus the “Liberal Arts in Practice.”) They study, research, reflect, and intentionally test and apply what they’ve learned through a range of connected experiences, such as internships, field work, study abroad, special summer programs, entrepreneurial projects, symposia, capstone experiences, and labs-based courses in nearly every field of study.

Facilities
LEED-Platinum certified Center for the Sciences + Hendricks Center for the Arts (downtown) + Logan Museum of Anthropology + Wright Museum of Art + World Affairs Center + Center for Entrepreneurship (downtown) + Poetry Garden + more

Top 20 for accessible professors — The Princeton Review.
Fifty years ago we invented the Liberal Arts in Practice as a way to get our students out of their textbooks and into the world. While we called it the Beloit Plan back then, it is still the backbone of how we approach learning by doing. Getting your hands on a project or problem (and getting those hands a little dirty in the process).

Your advisor will help guide you to courses, internships, research opportunities, and more to help you take your studies into the real world. Recently, our students have been placed at sites like Colorado Wolf and Wildlife Center, Rice University, Dongjen Center for Human Rights Education, Bottlenose Dolphin Research Institute, U.S. Senator Dick Durkin's Chicago office, John Michael Kohler Arts Center, Temple University Infant and Child Laboratory, Rock County Historical Society, Rogers Park Business Alliance, Big Brothers Big Sisters, Madison's City Attorney's Office, Project Wisdom, Journey Mental Health Center, and The Art Institute of Chicago.

**Take a risk—A BIG RISK.**

You may fail. It’s how we learn. There isn’t a scientist alive, an athlete on the court, or a writer in print who hasn’t faced down failure. In fact, sometimes a mistake is the most valuable thing you can make—a defeat—your most important turning point. It can lead to deeper insight, or to the real solution. This is important at Beloit. We want you to embrace risk, try the unexpected, to go deeper.
You’ll quickly learn that Beloit College extends well beyond the borders of campus. Our students take their education on the road. In our Cities in Transition program, they study foreign governments, politics, and municipalities. In other programs, they’re doing research in Antarctica or studying social movements in South America. And then? They come back to campus and present their work during International Symposium, engage in globally aware courses, and share their experiences in class and over dinner. This is the world you will inhabit.

The Weissberg Chair in International Studies brings a distinguished international figure to Beloit as a visiting professor each year. We have hosted dignitaries, Mideast peace activists, Pulitzer Prize-winning journalists, ambassadors, Chinese dissidents, and even the secretary general of Doctors Without Borders.
Almost all of our students live on campus all four years, with many residing in special interest housing, like anthropology, art, or science fiction, as well as faith-based and multi-cultural options. We host bands, comedians, and poets; we hold open mikes, film series, and concerts, including the annual Folk ’n’ Blues festival. We have over 100 clubs and organizations, intramural and recreational sports, and 19 NCAA Division III teams. No day is done just because classes are over. Beloit is alive 24/7.

INTRAMURAL AND RECREATIONAL SPORTS

If you want it, it’s here. Recent sports include basketball, flag football, frisbee golf, wallyball, Ultimate, skiing, martial arts, weight lifting, and more.

Beloit is an original member of Colleges That Change Lives and has been featured in every edition of the book.
Beloit sits just a stone’s throw from Chicago, Madison, and Milwaukee, but there’s a lot here at home to like.

We have an award-winning downtown, a top-notch farmers’ market, the Beloit International Film Festival, fine arts incubators, organic potato chips, minor-league baseball, international corporations, and Riverside Park, where you can amble along the Rock River and ice skate, dance to live music, paddle boat, play tennis, launch a kayak, and go fishing. When you visit, we encourage you to take the time to look around. We are proud of our home here on the Illinois and Wisconsin state line. We are as much a part of our city as it is a part of us.
Our graduates go on, as our mission statement puts it, to “lead lives of purposeful consequence.”

They go off to challenge and change minds and methodologies, practices and graduate programs, businesses, communities, and more. The flexibility and tenacity they cultivated here is a powerful force in the world. Don’t believe us? Here’s a smattering of proof (and people) to consider. For more, go to www.beloit.edu/beyondbeloit.

**Christine Brown**  
Class of 2009, Ph.D. Candidate, North Carolina State University  
**PROFESSIONAL:** National Science Foundation Graduate Research Fellow • Predator Spiders • Teaching Assistant  
**BELOIT:** McNair Scholar • Yellow-Bellied Marmot • Rocky Mountain Biological Laboratory (4x) • Women’s Basketball, MVP Recipient • Bachelor of Science in Ecology, Evolution, and Behavioral Biology

When you graduate from Beloit, you graduate with confidence.

You will enter the world with both a transcript and a résumé, ready for what’s next. How do we know? Because our students prove it every year. We’ve been listed among the top 50 colleges producing corporate execs for over 20 years. Two-thirds of our students go on to earn an advanced degree. Kiplinger’s and Forbes celebrate our commitment to student success and undergraduate teaching, while U.S. News & World Report and Princeton Review praise our international education programs. More telling, our students enter directly into challenging, fascinating careers. Recent graduates have started at Burke Museum of Natural History, Groupon, National Opinion Research Center, The Nielsen Company, Peace Corps, Rosalindu, U.S. Bank, The Washington Post, and the Wildlife Conservation Society, to name just a few.

Admissions

We practice holistic admissions, meaning we value your complete application more than any single grade or test score. We are “test-optional” and don’t require SAT or ACT scores. Instead we expect students to have challenged themselves in high school with demanding courses. We will also pay careful attention to your essay. We recognize that each applicant is unique but, for what it is worth, the most recent first-year class had an average grade point (unweighted) of 3.9, ACT composites of 27, and SAT of 1220.

The comprehensive fee for 2014-15 is $42,970 which includes room and board. But—and this is important—the actual cost a family pays is often below that, thanks to a generous financial aid program that includes need-based and merit aid. www.beloit.edu/afford

Cost

More than 85% of Beloit students are receiving financial aid and the average package totals more than $23,000 per year. Beloit routinely appears on “Best Value” lists in Kiplinger’s, U.S. News & World Report, and Princeton Review. Spend 15 minutes with our Net Price Calculator to get an estimate of your cost to attend Beloit. www.beloit.edu/afford

Affordable

The best gauge we have for the value of a Beloit education is how well it prepares our graduates for life after college. Our alumni do amazing things, armed with the confidence, hands-on experience, and direction afforded by their years at Beloit. Just ask us. There are so many examples as there are Beloiters. We take great pride in the lives our students build. www.beloit.edu/what’simportant

Value Amplified

The next step is yours. Go to www.beloit.edu to learn more about Beloit, meet our students, and schedule a visit to campus.
Statement of non-discrimination

It is the policy of Beloit College not to discriminate against students, applicants for admission and financial aid, or employees on the basis of race, color, religion, national origin, ancestry, age, sexual orientation, physical or mental disability, or other traits protected by law that are unrelated to institutional jobs, programs, or activities. Beloit is a Title IX institution.

1,250 students • 48 states • 30+ countries • 15 avg. class size • 50+ majors • 100% participate in internships or field study programs • 100% complete capstone project • 50% study abroad • $400,000+ awarded for student projects annually • 100+ clubs and organizations • top 10 for undergrad teaching, U.S. News • top 20 for producing future Ph.D.s • 2 teaching museums • 20 ancient Native American mounds
